Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

The response to the election requirement submitted on March 2, 2005 has been received. However, the restriction issued on December 2, 2004 was based on the originally filed claims. It is recognized that a preliminary amendment was filed on November 14, 2003 in which claims 1-23, 25-29 have been cancelled, and claims 31-44 have been added. In view of the preliminary amendment, the examiner would like to withdraw the restriction requirement issued on March 2, 2005. Pending claims 24, 30-44 stated in the preliminary amendment direct to two separate subcombinations. A new restriction is herein established. The examiner would like to apologize for the inconvenience.

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 24, 31-40, drawn to providing real time traffic weighted routes using search tree of road records and gates, classified in class 701, subclass 209.
 - II. Claims 30, 41-44, drawn to selecting road segments for the solution route by considering limited road segments in the road segment record using ranks of roads and focus ring, classified in class 701, subclass 201.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions group I and group II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention group II has separate utility such as

Art Unit: 3661

searching optimal route from a position to a destination by considering limited number of route segments based on rank and limited area. See MPEP § 806.05(d).

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thu Nguyen whose telephone number is (571) 272-6967. The examiner can normally be reached on T-F (7:30-6:00).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thomas Black can be reached on (571) 272-6956. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
